DIGITAL SIGNAGE SOLUTION

ENGAGE YOUR CUSTOMERS

With Donatello's new platform, we provide a unique opportunity to our partners in creating interactive media experiences that empowers you with far more than just a simple media controller.

THE CONCEPT

Redefining the concept of Digital Signage; a state of the art fusion of hardware and software, Donatello is Wavetec's Digital Signage solution that allows corporations to connect with its customers through an exceptional network of digital displays.

The prime aim of this product is to leverage your business by providing the right message, to the right person at the right time. Donatello is a Digital Signage player managed by Donatello Suite a web-based application that delivers high definition videos and images, live TV, RSS Feeds, Stock Tickers, integration tools, scheduling and more, all from one central location, at anytime, anywhere.

High definition videos & images

Scheduling

RSS Feeds

Centralized real time updates

Integration services tools

MAIN BENEFITS

- * Flexible template design & scheduling
- * Live TV Streaming
- * Plug & Play Device
- * High Definition Videos & Images
- * Alert Notifications
- * Centralized Real Time Updates
- * RSS Feeds, Financial Tickers, Weather & Time.
- * Integration Services Tool

INTERACTIVITY

Interactivity is the sum of all parts that, if positive, creates the engagement of your customers with your brand or message.

INTEGRATION

Donatello Suite, the Server application, allows a seamless integration with third party solutions and products so as to take advantage of the best available technologies. Such functionality is possible by using our proprietary Kettle Control, a very powerful integration tool.

CENTRALIZED

All devices can be connected to a private cloud that would allow the management of its content from one single point and in any location.

DYNAMIC

Donatello can change the content of the display in real time and hence creates a truly engaging experience for your customer.

Wavetec's digital signage solution allows you to better engage with your customers by keeping them informed and entertained.
